## Fish Out of Water

The Fish out of Water Art Trail began 16 years ago to  
celebrate Rotorua's magnificent lakes and fisheries.

- There are 16 lakes in the Rotorua region,  
and 15 of these are fishable.  
The fish stock is mainly rainbow trout with  
brook and tiger trout also present.

For more information about fishing on  
Rotorua's lakes visit:

## A big thanks

A project like this wouldn't be possible without the  
support of many people:  
Thanks to participating artists, Fish Host businesses,  
and YOU for completing the trail!

# Meet the Fish

## JACQUI BOND | ADAPTER FISH

Tired of being pushed around by trout, weirs and murky water, Kōaro had a hui and developed the latest in fish survival technology.....

## IDEA DAY SERVICES, IHC | ARTY & ABLE

A creative splash of colour, sparkle, interest and variety. Best of all - being together. Doing what fish do... I mean people! Live, be, do!

## GLENYS COURTNEY-STRACHAN | BATTERED FISH

A battered and bruised female fish. This is not her end story, it is the beginning. Other fish need to speak up and say no to violence against women. It is ok to ask for help.

## GRACE MCQUOID AND LAUREN STEPHENS | COFISH-19

The Cofish-19 swims around and protects everyone from COVID-19. It is immune to COVID and can help get rid of it.

## LYNDA PUDNEY | FIBRE FISH

Formed with a love of creating with fibre and my love of the lake we live beside. A blend of both.

## MILA, LEILANI AND AMIR | GEN-Z THE FISHY

The future of our generation (Z) depends on fish having access to clean and healthy waterways. Our fish is here to raise environmental awareness.

## BONNIE STEERE | MS BROOK CHAR

(AKA Tiger Trout) has dressed up to meet her friends at Okere Falls for Te Whakatūtū Waka Moana - Parade of the Classic and Wooden Boats.

## RAKAI JADE | MANAWAROA - RESILIENCE

Grit and determination to survive the effects of COVID is the whakaaro behind our team's ika. It is about supporting our community so we can collectively move forward, stabilise & grow.

## TRACEY FLAY | SUMMER REVERIE

Reverie - "To Daydream". Summer zest, luminous dazing, tropical tang, beach basking. The fun of summer captured through the lense of youthful colour and childish wonder

## JEMMA MORRISON | SWIMMING THE SEASONS

Inspired by the challenge I set myself this year to swim 366 days in a row. Completely immersed in our lakes and the beauty of nature - no matter what the season!

## ROTORUA LIBRARY, TE AKA MAURI | TE IKA A MĀUI

Look what Te Aka Mauri caught! An ode to one of our favourite legends and storytellers.

## CLAIRE DELANEY | THE STORYTELLER

This fish has gathered many stories from the great lakes of Rotorua and has a way of reminding us what really matters. All of his stories are from his heart.

## ANGELINA MUSPRATT, RUBY REED & MAIA REED | UNITY

Our fish is a colourful celebration of diversity within our Lakes District community. Peace and love to all.

## CATHERINE WARD | X-RATED

The inside story on the unseen effects of our throwaway society, but in a not totally serious way.
